

INTELLIGENT MULTIPLEX SYSTEM

## MEGA® FUSE KIT

Part Number: **ISISMEGAZ**

Price: **\$24.00**

### DESCRIPTION

Protecting your investment is important to us so with every kit we include a MEGA® Fuse accessory kit for short circuit protection.

The MEGA Fuse was designed in cooperation with the large automotive OEMs to ensure proper protection of the battery and alternator from short circuit events. Using patented "Diffusion Pill Technology", the MEGA fuse provides time delay protection of high-current circuits using heavy gauge wiring.

Don't settle for anything but the best. Use Littelfuse automotive fuses and fuse holders to protect your ISIS Intelligent Multiplexed System.

### MODULE FEATURES:

- Industry – leading battery protection for your ISIS™ intelligent multiplex system from Littelfuse
- Designed specifically for high-current protection
- Patented Diffusion Pill Technology for battery and alternator protection
- Rated for use up to 125°C

### KIT INCLUDES:

- 2 – 60 Amps, MEGA fuses
- 4 – Crimp-on ring terminal connectors for the fuse and power cables
- 2 – Ganged MEGA fuse holders with covers
- Installation Guide

### TECHNICAL SPECIFICATIONS:

#### MEGA® Fuse

- Interrupting rating: 2000 Amps @ 32VDC
- Ampere rating: 60 Amps
- Voltage rating: 32 VDC
- Operating temperature range: 40°C to 125°C

#### MEGA® Fuse Holder

- Rated up to 500 Amps
- Voltage rating: 32 VDC
- Operating temperature range: 40°C to 125°C
