

INTELLIGENT MULTIPLEX SYSTEM

ISIS™ inDASH™ DASHBOARD WIRING HARNESS

Part Number: **TBD**

Price: : \$159

DESCRIPTION

Connecting your dashboard instruments and switches to your ISIS Intelligent Multiplex System just got a whole lot easier. The inDASH dashboard wiring system has everything you need to wire your dash from the wires and terminals to heat shrink labels to keep you wiring organized and intuitive.

The best part about the inDASH harness is that all of the electrical dash connections can be connected or disconnected by unplugging just two headers. This means you don't have to unplug every connection individually to remove your dash for trouble shooting or maintenance. Just two clicks and you're done. Simple, Easy and Fast. Giving you more time to focus on what matters most, you're vehicle build or restoration project.

MODULE FEATURES:

- Allows you to route all dashboard wires and MASTERCELL™ input unit wires into 2 connectors for ease of maintenance (disconnect the two head connectors and you can remove the dash).
- Easy to use wire ties and labeled heat shrink tubing for wire organization and quick identification.
- Adhesive mounts keep your system organized and looking clean
- 6 and 12ft wire sets for flexibility in allowing you to choose which size best fits your application.
