

INTELLIGENT MULTIPLEX SYSTEM

## inLINK™ RF CONTROL MODULE

Part Number: **ISISRDFMZ**

Price: **\$179.00**

### DESCRIPTION

With the ISIS inLINK™ radio control module you can control all of your automobile's electrical functions through the ISIS electrical system from up to 100 ft (30 meters) from your vehicle.

Why limit control of your electrical systems to in-dash switches or buttons. With the ISIS inLINK™ radio control module you can control all of your automobile's electrical functions from up to 100 ft (30 meters) from your vehicle.

Whether you want to turn on your lights to find your car in a parking lot or put on a show by bouncing your automobile's air suspension, the inLINK radio control module is guaranteed to improve convenience and impress friends.

### MODULE FEATURES:

- 100 ft (30 meters) range for maximum convenience
- "Plug-and-play" circuit board makes installation simple
- No system programming needed. ISIS MASTRCELL™ input unit automatically recognizes the I-Link module.
